

01 Brand Overview

Brand Name

Glitch District

The name Glitch District represents a fictional urban environment where technology is malfunctioning, digital systems are breaking down, and creativity takes over. The name combines the concept of digital glitches with a city district, creating a unique world that can be expanded into multiple skateboard graphics and stories.

02 Brand Personality

Urban Rebellious Creative Digital Futuristic Energetic

03 Target Audience

Age: 14 - 28

Interests:

The target audience enjoys bold graphics, alternative culture, and brands that challenge traditional design and social norms.

- Skateboarding
- Gaming
- Streetwear
- Digital Art
- Music
- Technology
- Urban Culture

04 Theme:

DIGITAL CHAOS

The deck series is based on a fictional city called Glitch District where technology is breaking down and reality is becoming distorted. Each skateboard deck represents a different area and story within the city.

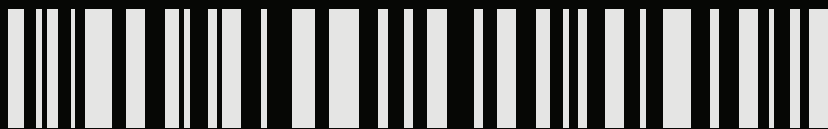

The artwork combines glitch effects, digital interference, cyberpunk visuals, graffiti culture, and futuristic urban environments.

GLITCH DISTRICT

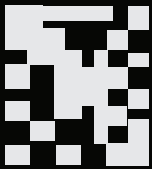

REALITY IS OVERRATED

Brand Message

Glitch District is a skateboard company inspired by digital chaos, urban culture, and creative rebellion. The brand explores a futuristic city where technology is malfunctioning, reality is distorted, and creativity thrives.

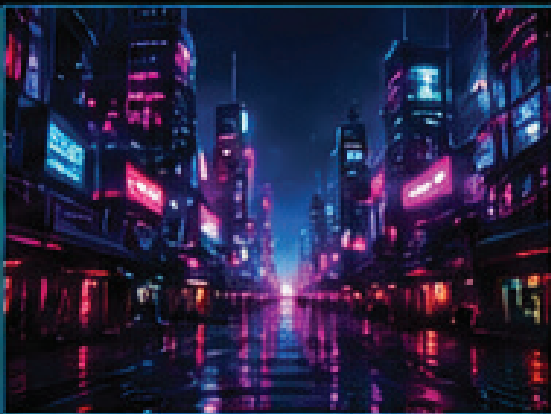

NO RULES // NO LIMITS // NO SIGNAL

Visual Example 01

Glitch art:

Digital distortion, pixel fragmentation, RGB shifts, and signal interference represent technological disruption and creative freedom.

Visual Example 02

Cyberpunk:

Neon lighting, futuristic architecture, digital technology, and urban environments reinforce the futuristic personality of the brand.

Visual Example 03

Skate culture & street art:

Graffiti, bold graphics, expressive characters, and rebellious visual language connect the brand to authentic skateboard culture.

Colour Palette

The colour palette was selected to create high contrast, strong visibility, and an energetic visual identity inspired by digital screens, arcade graphics, and urban nightlife.

05 Skateboard Concepts

DISTRICT 01

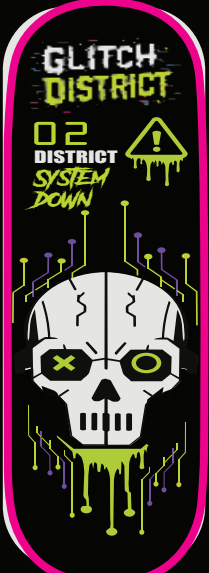

SIGNAL LOST

A distorted portrait experiencing signal interference, pixel fragmentation, and digital breakdown.

DISTRICT 02

SYSTEM FAILURE

A robotic skull surrounded by warning symbols, circuitry, and technological malfunction.

DISTRICT 03
